- Urdu

PROFILE

Passionate and detail-oriented Full Stack Web Developer with a solid foundation in modern frontend and backend technologies. Skilled in React.js, Node.js, JavaScript, Tailwind CSS, and database management. Eager to leverage hands-on project experience, clean coding practices, and problem-solving skills to build efficient, scalable, and user-friendly web applications that deliver seamless user experiences.

WORK EXPERIENCE & PROJECTS

E-Commerce Web Application

MERN Stack & REST API Integration

- Developed a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented user authentication, product catalog, cart functionality, and secure REST API integrations.
- Designed responsive UI using Tailwind CSS for seamless mobile and desktop experience.

Weather Web Application

React.js & REST API Integration

- Built a responsive React.js weather app fetching real-time data from OpenWeather REST API.
- Implemented dynamic search, dynamic background visual updates based on weather conditions, and a custom navigation bar.
- Styled using Tailwind CSS for clean, mobile-first design across all device screens.

Expense Tracker Web Application

React.js & Frontend Developer

- Developed an interactive full-stack financial tracking tool using React.js and Tailwind CSS.
- Integrated React-ApexCharts to render dynamic graphical representations of income vs. expense analytics.
- Implemented real-time budget calculations, history tracking, and efficient state management.
